

- Draw a rough sketch of Kitchen
- Mark locations of Sinks, Cooktop, Fridge etc
- Mark location of backsplash and window sills
- Mark location of all walls
- ⊗ Select Edge Detail from our extensive range
- Calculate area: measure in inches and divide by 144 for Square feet

1. $183" \times 4" / 144 = 5.8 \text{ SF}$
2. $183" \times 25.5" / 144 = 32.41 \text{ SF}$
3. $103" \times 43" / 144 = 30.76 \text{ SF}$
4. $108.5" \times 25.5" / 144 = 19.22 \text{ SF}$
5. $108.5" \times 4" / 144 = 3 \text{ SF}$

TOTAL = 91.2 SF
